

ASIA
SUMMERCOLLECTION2019

I N T R O

Since 1996 Ixon is attached to equip and protect every rider! With a collection of 450 references, the French brand dedicates its know-how to design and manufacture garments that will suit the widest public possible, proposing various styles, sizing and price positionings.

N°1 in France, distributed already in 70 countries, among top 3 of garment brands present in Grand Prix, Ixon, and the Holding that supports it, relies on 4 major assets: independence, quality of service, originality and trustworthiness.

Not only Ixon is a mass market brand, but our ambition now is to conceive products that meet the needs of targeted public, focusing on their priorities and specificities.

*This is why Ixon is proud to present its very first **collection dedicated to Asian market**.*

Every aspect has been thought to meet Asian riders expectations: technical features, design, and of course a specific sizing.

*Indeed, the sizing of jackets and pants has been adapted to morphological standards of the targeted motorcyclists to offer an **optimized comfort of ride**.*

*A particular care has been devoted to technical and safety features : while jackets suits and pants are equipped with **CE approved protectors, pockets and fixing systems** for optional back and chest protectors, **adjustable positions** for elbow and knee protectors, and **3M reflective** parts, Ixon is also proposing **exclusive chest and back protectors**.*

*Thermoregulation was also a great concern considering the changing weather conditions: **waterproof wallet pockets**, connecting system allowing **waterproof or thermal inner linings**, large parts in **ventilated mesh** are present to provide an even more comfortable ride.*

All these features make the presented products 100% suitable for asian riders, yet 100% in the Ixon DNA.

So no doubt you will be impressed by this unique collection and get on board with us !
