

The LS2 logo is located in the top right corner. It consists of the letters 'LS2' in a white, italicized, sans-serif font, set against a solid red rectangular background.

LS2

The background of the entire page is a high-contrast, close-up photograph of a racing helmet. The helmet is primarily white with black accents and features several ventilation slots. The lighting creates strong highlights and shadows, emphasizing the helmet's aerodynamic shape.

HELMETS & APPAREL

COLLECTION 2023-2024

LS2

The LS2 brand was born in 2007 with a clear purpose of becoming the world market leader in the motorcycle helmet industry. More than 30 years of experience of its parent company, MHR, has contributed to its rapid growth.

LS2 covers all needs of two-wheel lovers from "head to toe": helmets, jackets, pants, gloves, boots and goggles.

Distributed in more than 125 countries, being market leader in many of them, LS2 is undoubtedly the fastest growing brand in its industry: a great demonstration of love and trust by motorbike consumers.

BRAND PILLARS

01 SAFETY

Protecting your dreams! Safety is our number one priority; we are committed to offer maximum protection to all our riders.

02 QUALITY

We only use high quality materials! Our products meet or exceed the most demanding test standards required internationally.

03 INNOVATION

LS2 constantly invest in R&D and we are continuously searching for modern technology to incorporate into all our products.

04 DESIGN

Style and design! We are highly creative in terms of graphics and product design without compromising on quality and safety.

05 PASSION FOR RACING

We love motorsport! LS2 is a proud sponsor of several riders in different categories (moto2, moto3, SuperBike, Dakar and many more)

OUR RIDERS

MICHAEL RUBEN RINALDI (WSBK1000)

DAVID MUÑOZ Y ANA CARRASCO (MOTO3)

GREGG BLACK (EWC)

XAVIER VIERGE (WSBK1000)

LUKAS TULOVIC (MOTO2) | ALEX ESCRIG (MOTO2) | LORIS BAZ (WSBK1000) | ADRIÁN HUERTAS (WSBK600) | JOHN MCPHEE (WSBK600) | ENZO DE LA VEGA (SSP600) | THOMAS BOOTH-AMOS (WSBK600) | TURQUINHO JR. (WSBK300) | ENZO VALENTIM (WSBK300) | LENNOX LEHMANN (SSP300) | DIRK GEIGER (SSP300) | RANDY DE PUNNET (MotoGP) | JÉRÉMY GUARNONI (EWC) | JASON O'HALLORAN (BSB) | JACK KENNEDY (BSB) | DANNY KENT (BSB) | GUSTAVO MANSO (CUP300) | ROBERTO GARCIA (MOTO2) | FILIP ŘEHÁČEK (MOTO2) | AGIUS SENNA (MOTO2) | CARLOS TATAY (MOTO2) | UNAI ORRADRE (MOTO2) | ADRIANO DONOSO (FIM juniorGP Talent Cup) | ALEX FERRER (TRIAL) | PAU TOMAS (ENDURO) | ALEJANDRO CEBALLOS (ENDURO) | GIRAUDON THIBAUT (ENDURO) | KIRIAN MIRABET (ENDURO) | JOAN PEDRERO (ENDURO) | JOAN BARREDA (ENDURO)

... AND MANY MORE

BORN TO RACE

THUNDER GP PRO

PROUD PARTNER OF OUR LS2 RIDERS

MATERIALS

CARBON

(MICRO WEAVE CARBON)

Carbon Fibre is a material used extensively in the aeronautical industry and of course in the highly competitive world of Formula 1 and MotoGP. It has incredible strength but it's extremely light.

LS2 uses multiple layers of our exclusive wide-weave carbon fibre for a very light, but strong shell that offers state-of-the-art energy management for the utmost on safety.

6K CARBON FIBER

With a minimum 6000 carbon fiber weave, LS2 sets the pace for high performance Carbon Fiber motorcycle helmets beyond the capabilities of any other helmet manufacturer in the market.

9K CARBON FIBER

Champions need championship-level equipment. Our top racing helmet, the FIM approved Thunder Carbon is ultra-light with enhanced shock absorption attributed to the high-performance 9000 Carbon Fiber weave.

HPFC

(HIGH PERFORMANCE FIBREGLASS COMPOSITE)

High Performance Fibreglass Composite is a carefully layered, proprietary blend of a unique weave of fibres pre-filled with resin into a strong, ultra lightweight, but rigid shell that bears an impact while better dispersing and managing energy for a safer ride.

KPA

(KINETIC POLYMER ALLOY)

A proprietary material specifically formulated by LS2, KPA utilizes nanoparticle technology to blend space age thermoplastics along with microscopic levels of aramid fibres for a material that is strong, lightweight, and offers the latest in high performance energy management for a safer ride. This special formula meets both ECE 22.06 and DOT requirements.

HPTT

(HIGH PRESSURE THERMOPLASTIC TECHNOLOGY)

LS2 developed HPTT as the perfect blend of ABS and other thermoplastic polymers to offer the ultimate balance between safety, energy managing performance, weight, and value.

LS2 INTERCOM

POWERED BY

LS2 4X is a bluetooth communication system co-developed with CARDO tailored specially for LS2's helmets.

This special model provides optimal bluetooth environment with intuitive operation and easy installation of the unit.

When riding you can listen to your music, GPS guide and make phone calls through bluetooth connection.

Intercom communication range is up to 1200m based on one-to-one connection.

APPAREL

MATERIALS

DUPONT ARAMID FIBER

Aramid fibers are known to provide additional strength, flexibility, and lightweight protection when combined with modern fabrics, making materials more resistant to cuts and abrasions. Though very lightweight, heat and fire-resistant Aramid fibers are extraordinarily strong: up to five times stronger than steel. That's why LS2 uses Aramid fiber as reinforcement in our jeans and casual pants.

CORDURA

Cordura is a DuPont-developed abrasion-resistant nylon fabric. It is made using a special weaving process that creates a dense and uniform fabric structure. This fabric is then treated with a finish that helps to protect it against abrasion and water. The durability of this fabric is twice as high as that of standard nylon fabrics and ten times as high as that of cotton. Cordura is available in a variety of weights and thicknesses. Because it is a high-performance fabric ideal for applications that require durability and abrasion resistance, leading armed forces around the world are increasingly using this product to make military equipment with outstanding performance.

OXFORD FABRIC 600D

A very special material that offers a higher level of performance than other materials of equal weight. This allows for high abrasion and tear resistance in a lighter, more comfortable garment. Oxford polyester fibers also have the advantage of being wrinkle resistant and offers outstanding shape retention. The polyester fiber fabric used in our LS2 garment collection has passed European environmental protection tests such as OEKO-TEX Standard 100 and EN17092. LS2 uses a special treatment that makes the polyester fiber softer to the touch without affecting its high performance.

OXFORD FABRIC 450D

A lighter weight version of our Oxford 600D fabric, our 450D Oxford fabric maintains the same performance edge over its competitors, offering a higher level of abrasion and tear resistance in a lighter, more comfortable material. Oxford polyester fibers also have the advantage of being wrinkle resistant and offering outstanding shape retention. The surface texture of the fabric is soft to the hand and ultra-comfortable.

SPANDEX

Spandex is the leader in high stretch comfort fabrics. Made from polyurethane fiber, Spandex makes for a perfect, form-fitting, flexible material. Its unique composition allows this fabric to guarantee outstanding comfort and freedom of movement.

RIPSTOP

Ripstop fabric has reinforcing threads woven in a grid pattern throughout the material. This webbing adds strength, abrasion and tear resistance, making for an exceptionally durable garment, while maintaining a high level of comfort.

3 LAYER SOFTSHELL

Developed to improve comfort while maintaining a high level of water resistance, 3-layer softshell fabric is a modern marvel. Made of super elastic polyester, our 3-layer softshell combines unmatched strength with elastic properties for extraordinary levels of comfort and performance.

OXFORD DOBBY

Oxford Dobby Laminated fabric is the result of combining super strong, abrasion and tear-resistant fabric with waterproof and breathable materials for state-of-the-art comfort and performance. The outcome is a masterpiece in material engineering that further raises the bar in terms of the quality, safety, comfort and style for LS2 motorcycle apparel.
